## HAND-HARVESTING AND VINIFICATION

Hand-picked; 25% whole bunches, no crushing; spontaneous fermentation; gentle maceration for a dozen days at 20-25°C; blending of free-run and press juices.

## VINTAGE PERCEPTION

2024 was a very fine vintage, despite yet another severe late frost episode in the region, which did not totally spare the estate. Alternating good rains, windy spells and temperatures that were not excessively high enabled us to obtain a very well-balanced harvest, with a real freshness in the wines obtained. They are easily digestible and fine, without excess.
